ELLIS SPEAKS AT CHAMBER BREAKFAST

GRASS VALLEY: Guerdon Ellis, supervisor of the Tahoe National Forest, told members of the Grass Valley Chamber of Commerce meeting at breakfast Tuesday morning in the Bret Harte Inn, that the purpose of the federal act permitting the establishment of co-operative sustained yield units is to stabilize the timber industry and resulting payrolls. Ellis referred to the speed with which timber is being cut on private lands without regard to restoration by natural growth. He said that this would soon force all lumber operators out of business, large and small, if nothing was done to regulate the industry.

The chamber made an allocation of as much as $100 to the construction of a float to be entered in Auburn's Gold Days celebration on May 14th, 15th and 16th, and later in the Nevada City Fourth of July parade.

To assist Fred Brady, executive secretary and manager, in construction of the float, John Bourquin was made chairman, and W. W. Esterly and William Stinson, members of the committee.

HISTORICAL NOTE
By H. P. DAVIS

THE LAIRD DAM DISASTER
NEVADA CITY IN 1857

During the summer of 1856, Amos T. Laird & Co constructed a dam across Deer Creek to impound water for their extensive system of mining ditches. This dam, located about six miles above Nevada City, backed up water to the depth of thirty feet and flooded two hundred acres.

In January, swollen by heavy rain, the water level increased dangerously. Early on a Sunday morning, February 15, 1857, the dam went out and a torrential flood rushed down the creek sweeping with it the wreckage of miners' cabins, cradles, long toms and sluices and huge trees uprooted from the banks. Backing up at the Main Street bridge, this huge mass of debris created a temporary dam raising the creek level fifteen feet above any previously recorded high water mark and flooding the lower section of the town.

Watched by the entire population from vantage points on higher ground, the bridge went out carrying with it the Broad Street bridge, several stores and miners' cabins, half of the Monumental Hotel and the Gold Tunnel mill, and seriously damaging the Pine Street suspension bridge. The damages were estimated at not less than $100,000.

NUGGET SHOPPER PUTS ON EXCITING NEW WORD CONTEST

Win a prize!

Have fun! Play a game! Enter a contest!

The NUGGET SHOPPER is putting on a WORD HUNT!

Here's how it works. (It's simple!) You go through the Shopper display ads (1 column by 3 inches or larger), and, using one word from each ad, write a sentence or brief paragraph on the subject "WHY I LIKE NEVADA COUNTY."

That does it! You simply circle the word in each ad, and turn in your paragraph with a copy of the Shopper to the Nugget office before 5 P. M. Wednesday, May 5.

Three judges, Jacob Schramm of McClard's Drug Store, Stanley H. Halls, insurance man, and H. M. Leete, Jr., will decide which is the most interesting sentence or paragraph on "Why I like Nevada County."

The winner this week gets a $5 merchandise order on Alpha Hardware Co., usable immediately. The winning thought will be published in next Friday's Shopper.

Did you ever hear of a more entertaining way to make $5? There's the game and here's your Shopper. Go to it!

HIGH SCHOOL CHORUS WILL TAKE PART IN MUSIC FESTIVAL

NEVADA CITY: Bill Tobiassen, director of the high school chorus, announced yesterday that his organization will participate in the Sierra Foothill League Music Festival to be held in Auburn, Sunday, May 1st. The local group will sing at 2:15 P. M. The choral event will take place in the Placer High School Auditorium.

Songs programmed are "God So Loved The World," "Who's That A Callin?", " The Time Is Now," and "Now Is The Hour". Local choristers will journey to Auburn by bus.

Schools participating in the music festival include Nevada City, Grass Valley, Auburn, Roseville, San Juan, Yuba City and Marysville. Over 1,000 students will take part.

DEVIL'S POST PILE

Devil's Post Pile National Monument, located in Madera County on the Middle Fork of the San Joaquin River, is reported by National Automobile Club to consist of a spectacular mass of hexagonal basaltic columns like immense posts. Two feet in diameter and forty feet high, these posts are perfect prisms.

SAFE PARKING

Don't back into trouble, advise officials of National Automobile Club's Public Safety Department. When backing into a parking space, be sure you have enough room and keep a watchful eye open for pedestrians and playing children. The wise motorist knows that in every phase of driving, caution counts.

THE - Diary of a 49'er

FROM THE BOOK EDITED BY C. L. CANFIELD

June 29, 1851—They are going to have a Fourth of July celebration and barbecue at Selby Flat in opposition to Nevada. Half a dozen more families have settled there in the last month. Both of the Missouri girls are married; women can't stay single long in this country. Anderson has been asked to deliver the oration and although he bucked at first he finally accepted.It's astonishing how everybody looks up to Pard: he seems to be a born leader. I hear the Saleratus crowd are going to have a burlesque entertainment in the evening. Pard asked me to spend the day in Nevada, as if I would consent to stay away and be making a speech. He is afraid I will have trouble with Odell. Delos Calkins was over here last week and said the fellow was only a big bully and that the ranch would stay with me. I told him I would look out for no one and did not need any backers, although, of course, I was pleased that they sided with me.

Another letter from Marie. Pard read it for me, although I have been studying French with his aid, an Ollendorf grammar and French dictionary. If any one should hear us around the cabin he would think we had both gone crazy. Of all the fool questions and answers that grammar takes the prize. Pard asks me in French if "I have the tree of my Uncle's garden ?" and I say "No, Jai ne pas; but I have the rosebush of my cousin," and we keep up this lingo for an hour. I don't believe I will ever learn to speak it. I thought I was getting along fine and a couple of Sundays ago I went into the Hotel de Paris at Nevada. I told the French waiter what I wanted for dinner and in his own language. I repeated it to him twice and then he shrugged his shoulders and said: " I talk ze French and ze Italian and speak of ze English a leetle, but ze Dutch I do not understand." I was so hot that I walked out without my dinner. I told Pard and he said he must have been an homme de la campagne and did not catch on to my Parisian accent. I think Pard was joshing me, but he kept a sober face and maybe that was the reason.

Beale Owners Will Send Representative To Washington

GRASS VALLEY: Directors of the Nevada-Yuba Counties Land Owners Association meeting Sunday in the Nevada Irrigation District Building have agreed to send either William Peckham or Clarence Poole, as representatives of the former landowners in Camp Beale, to Washington, D. C. in event a hearing can be obtained before the House Armed Services Committee.

The association hopes that such a hearing will be called. Congressman Clair Engle has for sometime urged that a delegation from the association be present when and if the committee holds a hearing. In event such a delegation is sent it is probable that Frank G. Finnegan of Nevada City, attorney for the association, will accompany it.

The directors of the association decided to continue present plans for obtaining as many endorsements of their proposals to return the Camp Beale reservation to the owners as soon as possible. The association is making every effort to have the Camp Beale acreage returned to the owners and is fighting the attempts of the Army Air Force to turn the area into a bombing range.

Veterans' News

The number of World War II veterans attending California schools, colleges and universities at the end of February under the G. I. Bill and Public Law 16 (disabled veterans)was down 13,000 from the record Fall enrollment reported last November.

According to Veterans Administration records there were 141,424 veterans enrolled in California schools at the end of February, compared to 154,725 in November.

The heaviest loss of student veterans was in Northern California schools, which reported 51,000 students at the end of February, compared to 61,000 last November.

Following is a breakdown by VA regional offices showing November and February enrollments.

Regional area	Nov., 1947	Feb., 1948
Los Angeles	88,468	85,385
San Francisco	61,121	50,904
San Diego	5,136	5,135
Totals	154,735	141,424

Student veterans attending schools, colleges and universities full-time under the G. I. Bill, and who want subsistence for more than one dependent under the new subsistence law passed by Congress, must furnish proof of a second dependent, the Veterans Administration has pointed out.

Eligible veterans with one dependent, or no dependents at all will receive their increase to $75 and $105 a month automatically about May 1. The raises will also be automatic to disabled veterans studying under Public Law 16, since VA already has information on file regarding the number of dependents.

However, veterans studying under the G. I. Bill who want the $120 a month subsistence for more than one dependent must apply for it. These veterans are urged to contact their nearest VA representative or office immediately. They should bring with them birth certificates, or certified copies, proving that they have at least two dependents.

CONVICT LAKE

Convict Lake, Mono County, is reported by National Automobile Club to have received its name from the part it played in a desperate prison break of 29 convicts from Nevada Penitentiary at Carson City in 1871. In a battle that took place at this lake, fourteen of the convicts and one member of the pursuing posse were killed.

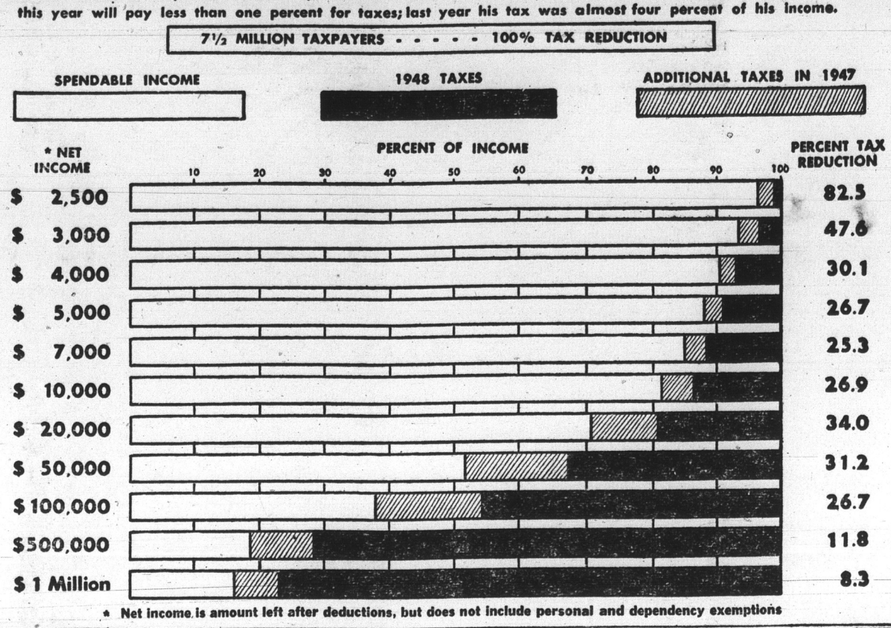
A WRONG IDEA

An old idea is just as wrong as it ever was, state officials of National Automobile Club's Service Department say, is that of driving at pressures lower than those recommended for the tires on the theory that it means better traction.

THE TAX CUT AND YOUR INCOME

The new income tax reduction, enacted by the Republican Congress with help from Democrats in repudiating President Truman's veto, will take nearly 7½ million low income earners off the tax rolls entirely. The tax chart below shows how much spendable income the average family of four will have after paying taxes in 1948 —and how this compares with their spendable incomes in 1947. For instance, a man receiving $2,500 income this year will pay less than one percent for taxes; last year his tax was almost four percent of his income.



* Net income is amount left after deductions, but does not include personal and dependency exemptions

THE DRINKING-DRIVING PROBLEM

(Editorial)

It is the hardest thing in the world to make a man listen to something about which he has a preconceived and differing opinion. He does not even hear what you say, because he thinks he knows better.

Something of the kind must account for the widespread public indifference to the problem of drinking and its relation to highway accidents. Certainly it cannot be said that the true facts have not been presented to the public, frequently and forcefully.

There is even evidence that the public has learned certain parts of the drinking-driving story and still been deaf to the main point .In a recent opinion poll, the public rated intoxication a leading cause of traffic accidents. But what has not been taken to heart, as the increasing number of such accidents testifies, is the all-important question of how much liquor it takes to make a motorist unfit to drive.

Tests show beyond all possible doubt that a very small amount of alcohol slows up drivers' reaction to the danger point. Add to this the other factors usually present—dark highways and late-hour fatigue—and the appalling death and injury rate is not surprising.

But the average drinking driver does not hear all this because he "knows better." His friends tell him he holds his liquor well; a few drinks convince him that he is the smartest and most skillful driver for miles around; and he drives confidently off into the night to suicide or slaughter.

The only way to curb drinking drivers is to have really tough laws. Only aroused public opinion can get such laws enacted. Let's un-stop our ears to the facts. Let's have less highway murder!

STATE IS SELLING BEALE BUILDINGS

MARYSVILLE: One story buildings at Camp Beale, which will yield more materials that are required for the construction of Veterans homes, are to be cut into sections by the State and each part sold separately, according to an announcement made today by H. H. Jaqueth, Chief of the Division of Local Allocations, Department of Finance. This will make the sales prices very low, enabling many more Veterans to acquire buildings for conversion into homes and also make it possible to move the parts intact.

The recently annoounced intention of the Army to use the Camp Beale site as a bombing range does not in any manner affect the sales of buildings by the Department of Finance. The sale will continue until all buildings are sold for the purpose of furnishing housing to Veterans and their families and to growers for the housing of farm labor.

Veterans are urged to make applications to purchase buildings through their local service officers and present the approved applications at the Camp Beale sales office of the Department of Finance. Growers may make applications through Farm Advisors or Farm Placement Managers in Department of Employment offices.

KEEP ENGINE TUNED

There is a world of difference in the performance of an engine tuned to concert pitch and one that is just slightly out with respect to adjustments of a number of features, state officials of National Automobile Club's Service Department. In view of the familiarity of motorist with this fact it is often hard to understand why they will put up with the wasteful inefficiency of maladjusted valves, timing that is slightly fast or slow, dirty and pitted breaker points, fouled spark plugs, and carburetor adjustments that tend to produce sluggish performance. The cost of correcting these flaws is not very great.

Economy Oven Menu

Just one and one-half cups of ground meat serves six in two-in-one biscuits. The entire menu can be baked in the oven.

Economy in meal planning means attention to small details—like using leftovers, purchasing of seasonal foods, getting the most for your money whenever a food item is added to the market basket.

This menu has been planned to help you make a good start on the spring budget—and still please the family with food that looks and tastes good.

Two-In-One biscuits make excellent use of a cup or so of left-over meat or of fresh ground meat, always less expensive because it does not need to be tender. Enriched flour in the biscuits gives more for your money because it contains added B-vitamins and iron at no additional cost.

Tomatoes and asparagus are foods that spring makes inexpensive, yet they provide just the right color touch.

A saving in time is accomplished by using the oven for the entire menu. Yes, asparagus and tomatoes can be baked, and you'll find that color is retained when a moderately hot oven is used. Place the asparagus in a flat, shallow pan with just enough water to cover the bottom of the pan. Season to taste and bake uncovered until tender, turning the spears just once. The tomatoes are cut in half, brushed with melted butter or margarine and heated until they bubble.

Two-In-One Biscuits

1 cup sifted enriched flour
½ teaspoon salt
1½ teaspoons baking powder
1 to 2 tablespoons shortening
2/3 cup milk
1½ cups ground meat (may be either cooked or uncooked)
Salt and pepper to taste.

Sift together flour, salt and baking powder. Cut or rub in shortening. Add milk to make a very soft batter. Fill greased muffin pans one-third full with seasoned meat. Pour batter on top of meat, filling pan two-thirds full. Bake in a moderately hot oven (400 degrees F.) 30 to 40 minutes. Remove from pans. Turn upside down and serve with grilled tomatoes.

Yield: Six three-inch biscuits.

WRONG DESTINATION

Pedestrians tempted to take that mid-block short-cut across traffic should remember that it may prove to be a short-cut to the emergency hospital, warns the California State Automobile Association.

DON'T SHIFT GEARS

As a safety precaution, avoid shifting gears when crossing a railroad track, the California State Automobile Association advises. If the automobile motor stalls on a grade crossing, leave the car in gear and press the starter button. There is generally sufficient energy in the battery to move the car to a place of safety.

MUSIC SERIES STARTS IN SACTO. MAY 21

SACRAMENTO: On a tour which will take it to only four California cities, the world-famous Philadelphia Orchestra, conducted by Eugene Ormandy, will be in Sacramento Friday evening, May 21, for a concert at the Memorial auditorium, 16th and J Streets.

Anticipated as one of the biggest events of the Sacramento Music Series for this year, The Philadelphia Orchestra, will mark the close of the 1947-48 season.

In the everlasting struggle for the top spot among the nation's leading philharmonics, the Philadelphia Orchestra takes the lead, with the unassailable opinions of both Arturo Toscannini and the late Serge Rachmaninoff. Both were of the opinion, over a period of years, that the Philadelphia Orchestra is the greatest organization of its kind in existence.

The following program has been announced for the Sacramento performance: Bach-Ormandy's "Toccata and Fugue in D Major"; Dvorak's "New World" symphony; Debussy's "Prelude to the Afternoon of a Faun" and either Strauss's suite from "Der Rosenkavalier" or his "Death and Transfiguration" Op. 24.

Tickets for the May 21 performance are available now at the Ware-Hazelton box office, Weinstock-Lubin's Sacramento. Orders must be accompanied by a check and self-addressed, stamped envelope.

SAN LEANDRO WINS FIRST IN AAA SAFETY CONTEST

San Leandro won first place honors among cities of 10,000 to 25,000 in population in the nationwide ninth annual Pedestrian Protection Contest sponsored by the American Automobile Association. Tied with San Leandro for first place in its population group were Stevens Point, Wis., and Bismarck, N. D.

In recognition of its achievement, San Leandro will be awarded a mahogany-mounted sculptured glass plaque, which will be presented at an early date by a representative of the California State Automobile Association, sponsor of the contest in California's 45 northern and central counties.

San Leandro had no pedestrian deaths for the year 1947 and its pedestrian protection program was judged to be among the best reported, with only one city in its size class receiving more credit. The judges found that San Leandro ranked near the top in practically every phase of the program, but was particularly strong in accident analysis, legislation and enforcement, school safety activities, and engineering.

BRAKES AND BREAKS

Motorist, give your fellow citizens a break in traffic by making sure that your car has four good brakes operating at maximum efficiency, urges the California State Automobile Association.

N. D. G. W. Celebrates Sixty-first Anniversary

NEVADA CITY: Laurel Parlor, Native Daughters of the Golden West, on the evening of April 21st, celebrated its 61st anniversary. The parlor was instituted April 13th, 1887, with a charter membership of 51 women. Of this number there are today but two remaining. They are Lulu Clutter Jones of Nevada City, and Hannah Kennan Grimes who resides in Arizona. Lula Jones was present at the celebration.

The hall, beautifully decorated in Spring flowers, was filled with members dressed as in grandmother's day. The tables were so arranged as to spell the figures "sixty one".

Dinner was served from a buffet table filled with delicious foods. The last course was ice cream and fine home made cakes. Following the dinner members and guests adjourned to the lodge room where Sarah Charonnat, the president presided. Plans for the reception of Grand President Doris Treaton May 5th, were made.

Prizes were awarded to Christine Kite for the most complete ensemble., to Lena Calanan for the oldest and prettiest bonnet and to Mary Mosorvov for the oldest accessories.

Beverly Berryman Weds Lester Ducater

GRASS VALLEY: Miss Beverly Berryman and Lester Ducotey were married last Saturday in Reno, Nev. by the Methodist pastor there.

Bride and bridegroom have been members of the staff of the local Pacific Gas and Electric Company office here.

The bride is the daughter of Mr. and Mrs. Clarence Berryman of this city. She graduated from the Grass Valley High School in 1939. The bridegroom is also a graduate from the Grass Valley schools. He is employed in the P. G. and E. construction department. The couple will reside at 121 Park Avenue.

Marie says she bought a chateau—that's a house—just outside of Paris, but that she is coming back on a visit to California this winter. It makes my heart jump when I think of seeing her again.

JULY 6, 1851—I have had an exciting time this week. Everybody in the neighborhood went over to Selby Flat for the Fourth. Kellogg read the Declaration of Independence and Pard made one of the best speeches I ever listened to. The crowd went wild over it and I was mighty proud of him. There was at least a thousand people on hand. Along toward evening he barbecue came off, an ox roasted whole and a half a dozen sheep. The Saleratus Ranchers and their friends organized a company called the "Rag, Tag and Bobtail Rangers," dressed up and paraded in the most idiculous costumes they could invent and marched around the flat, singing, yelling and shouting until hey were so hoarse they could not whisper. I was ooking on peaceably, not interfering with anybody, when I heard a shot and felt a sting in my shoulder. I whirled around and saw Pard wrestling with Odell. He wrenched a pistol away from him and beat him over the head until he was insensible. Then he ran to me and said: "Boy, are you hurt?" but I wasn't—

Truck Driver Gets Self In A Pickle

GRASS VALLEY: A large wholesale grocery truck, with its tail gate open yesterday morning assayed the grade between Auburn and Mill Streets on Bank Street. By the time the truck reached Mill Street it had unloaded most of its pickles in glass, condiments and salad oils.

The street was filled with an aromatic fragrance and well cooated with sweet pickles and A car following the truck shortly after the debris was removed was unable to make the grade and backed down to Auburn Street. The surprised driver could not understand why his rear wheels went into a spin.

ANIMAL LOVER

GRASS VALLEY: William Henry Stein, who lives in a tent near the old Thomas Diggin's above Patrick's Court here is a lover of animals. He has a pet fawn given to him by a game warden a few days after birth, several dogs, and a cat.

The cat and the fawn, or rather the young buck as he is now, are special friends and formerly lapped up milk out of the same pan. The fawn follows obediently on a leash wherever and whenever Stein takes a stroll.

Stein was born into a mining family in Shingle Springs, El Dorado County in 1885, and has followed that calling ever since. Until recently he held a lease on the Thomas Diggin's and made enough for his daily needs in washing the gold from the gravel.

Henry Walker passed away at his home in Grass Valley. Born in that place in 1862, Mr. Walker during his lifetime had been a printer for the Unon, deputy postmaster, city assessor, deputy county assessor, recorder, undersheriff, and in 1902 was elected sheriff and served for twelve years.

* * *

Sheriff George Carter staged a surprise raid in Truckee which netted a thousand dollars for the county treasury.

R. H. Meyer of Downieville sold his grocery business to M. P. Fischer, owner of the Nevada City-Downieville Stage line. W. L. Carter was to manage the business for the new owner. Mr. Meyer had been in the grocery business for many years, originally in the old Byington Building and later in his own building across the street.

North San Juan was again to hear the peal of a school bell. Mr. Frank Davis donated the bell which had originally hung in the belfry of the Sebastopol school in the early fifties. Later it was taken to Columbia Hill for the church there. Mr. Davis bought the abandoned church for a stable for his horses.

Nevada City was the scene of much colorful bunting, draped flags, cannon fire and bell ringing as trains began arriving bringing delegates from all over the state to the 31st annual encampment of the G. SPEED AND LIFE

Tire experts point out that the heat generated by high speed driving cuts tire life as much as one-third. To this the California State Automobile Association adds the observation that excessive speed can also cut the driver's life instantly.

STOPPING DISTANCE

The pedestrian walking at three miles per hour can come to an instant stop, in case of emergency, but many pedestrians who don't drive fail to realize that an automobile traveling at the moderate speed of 25 miles per hour requires approximately 70 feet in which to stop, the California State Automobile Association points out.

The fellow came to by this time and the crowd wanted to hang him, but Pard interfered, saying it would be a disgrace to the camp, so they agreed to banish him, giving him twenty-four hours to pack up and leave with the penalty of hanging if he ever came back. That was enough Fourth of July for Pard and me and we went back to the creek and I got lectured all the way home about getting into scrapes. I didn't kick back for I knew he was making believe so I wouldn't think he cared much and was trying to hide his real feelings. When we got to the cabin we let Jack out and sat under the tree, the moon shining, the wind sighing through the pine boughs, the dog at our feet, and we got as sentimental as two old maids. He told me what a lonely man he had been until we began cabining together and how luck had turned and fortune had favored him in many ways since then. He looks on me as a sort of younger brother and I am sure I could not like an own brother any better. Jack wagged his tail as if he understood it all, and I enjoyed the evening better than the celebration; but Selby Flat knocked the spots off of Nevada all the same.

"3D PARTY VOTE IS VOTE FOR MOSCOW." MELVIN PIEROVICH

JACKSON: In a message to the voters of the Sixth Assembly District, Melvin L. Pierovich of Jackson, Attorney and Public Accountant and candidate for Member of the Assembly, stated that he believes he is qualified by training and experience to carry out the duties of the high office to which he aspires and that if elected he would without fear or favor work for the best interests of his district and the people of California.

He said that he feels his legal experience, in the event of election, would stand him in good stead in the interpretation and evaluation of laws that come before every legislator and that his experience in the field of taxation, since he was employed in the Office of the Franchise Tax Commissioner for several years, would enable him to cope with the fiscal aspects of state government. As a member of Allied Military Government, Mr. Pierovich dealt at first hand with the countless problems of administration and management that confronted this branch of our Armed Forces in war torn Europe and he is of the opinion that this has been invaluable experience which would add immeasureably to his understanding of personnel and administrative matters.

Mr. Pierovich further said, "People ask me whether I am for labor and against capital or for capital and against labor. My answer is that I am neither. Lest this be interpreted as an attempt to carry water on both shoulders I wish to remind those posing the question that the idea of a constant and continuous antipathy between these two sections of our people is a product of an idealogy foreign to our American concept of government whose agents are always striving to stir unrest and dissatisfaction, to pit varying elements of our society against one another so that they can bring about the chaos on which alone they thrive.

"Not only do I think it erroneous to say that we are divided into two separate, distinct, and antagonistic classes, for these elements of our society shade into one another so that the distinction is more often than not non-existant, but the laborer of today in our free Democracy, is the capitalist or manager, large or small, of tomorrow, the place in society that anyone is privileged to strive for and attain, is limited only by the individual's initiative, energy, judgement and desires.

"If I were to be selected to represent the counties of the Mother Lode which make up the Sixth Assembly District, I would consider myself the representative of all the people in it, not just of some group or section, and I would consider it my duty to evaluate every piece of legislation that came before me and act thereon in accord with what my best judgement and conscience decred was right and in keeping with the principles upon which our state and nation are grounded.

"The only group with which I cannot and will not do business is that small but ever active element which is not seeking to assist in creating an ever more abundant life, but serves a foreign power and tries by every trick and device to weaken us as a nation and a people. Allied to them, sometimes unwittingly, are a number of well meaning, though misguided individuals, who have been misled by the mouthings and stock slogans of this subversive minority which sometimes pass for clear thinking. I refer to the third party and its followers. Those manipulating the strings behind the scenes have entered into almost every contest, small or large, a candidate so that they can defeat the forces of true liberalism and by degrees attain respectability, so that they can legally gain power only to abuse it as they have in so many countries of Europe whose tragic example is only too plain to us.

"None of their specious arguments bear analysis but too often we Americans who are oftentimes forced to read as we run, are apt to fail to analyze them. For example, Henry Wallace doesn't want us to arm, it's an incitement tot war, he says. By the same line of reasoning, those of our ancestors who came across the plains should have left their rifles home because the sight of them was infuriating to the red men, or perhaps our police should go around unarmed, then there would be no violence because to follow their "reasoning" criminals only commit crimes of violence because they are allergic to arms when carried by officers of the law.

"The rest of their tenets are of a piece with this, but they have such a running of the mouth that reams of paper would be needed to answer them all in detail, suffice to say that in my opinion a vote for the third party is a vote for Moscow and encouragement to those forces which jackal-like are looking to the day which in their book, they think they will be able to tear down our honored and revered institutions and "take over."

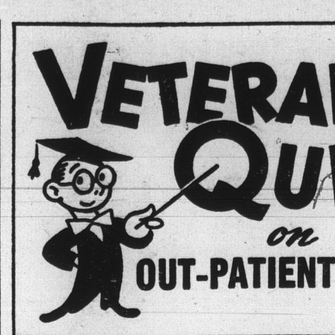
BATTERY RECHARGING

An automobile battery which runs down gradually because of insufficient use should be recharged on a slow charger so that excess sulphation can be eliminated gradually, says the California State Automobile Association. A battery that has run down over night, or within a short space of time, can be quickly restored to efficiency by a fast battery charger.



Q. May a veteran be treated by his own physician at government expense?

A. Yes, if he has a service-connected disability and receives prior approval for such care from the Veterans Administration.

Q. Which veterans are entitled to treatment other than in a VA hospital?

A. Known as out-patient treatment, this care is provided to veterans with disabilities which originated while in service.

Q. Can a veteran receiving out-patient treatment enter a VA hospital?

A. If physical examinations disclose the need for hospitalization, such care may be arranged for by the staff of a VA clinic or through any VA office.

Q. How long does a veteran have to wait before he is hospitalized?

A. If a service-connected or emergency case, admission is immediate. There is still a shortage of beds in VA hospitals, however, and veterans with post-war disabilities must wait several weeks in some areas.

Q. Does VA provide care to veterans' dependents in their out-patient clinics.

A. No. Only veterans are eligible.

For complete information contact your nearest Veterans Administration office.

A HAZARD REMOVED

In turning around on a rural road there is one preventative step against getting stuck, point out officials of National Automobile Club's Safety Department. That involves seeing that, if one pair of wheels must get off the pavement, the front two are selected .They have nothing to do with driving the car and if they should get stuck the rear wheels can usually pull them out.

BUILD NEVADA COUNTY

S-N CHAMBER PLANS HI'WAY 49 MEETING

NEVADA CITY: The Sierra Nevada and the Sierra Chambers of Commerce will stage a dinner meeting here on May 6th to which the chambers of commerce and boards of supervisors of Nevada, Plumas, Sierra and Placer Counties have been invited.

The dinner will take place in Deer Creek Inn. The purpose of the meeting is to promote the completion of Highway 49 from Nevada City to Downieville, Sierra County, and as far beyond Downieville as the Satley Road, which forms a link with the road to Reno, Nevada.

Invited to attend the dinner are Charles H. Purcell, director of the Department of Public Works, Homer Brown, member of the State Highway Commission, Sacramento, C. H. Whitmore, chief engineer District No 3, division of highways, and T. H. Bigelow, director maintenance of highways for the Nevada County district, with headquarters here.

It is stated that section of Highway 49, most in need of improvement, is the stretch of highway that includes Depot Hill. Due to the heavy cost this has not yet been attempted.
